Closing up Business—Bills Passed Finally—The Apportionment Fixed—The Congressional Election—The Winding up Presentations.

Special to the Gazette.

HARRISBURG, May 14, 1874.

SENATE.

In the Senate this morning the following House bills were passed finally:

The act enabling members of corporations, who reside at a distance from the central office, to vote by proxy.

Act to provide for Inspectors in the Penitentiaries.

Regulating the sale, consumption and inspection of gas.

The remainder of the session was occupied principally with reports of Committees of Conference.

At the afternoon session the following House bills were disposed of.

The act making Decoration Day a legal holiday.

Act to provide for terms and return days of the Courts of Common Pleas of Allegheny county.

HOUSE.

In the House there was not as much business done as on Wednesday. Among the items was a report from the Conference Committee, in relation to the bill in reference to Justices of the Peace. The Committee failed to agree and so the bill fell.

The Senate amendment to the Geological Survey bill were adopted.

The Legislative Apportionment bill, from the Conference Committee, was agreed to.

Allegheny's Share.

By the Legislative apportionment, which has been fixed, Allegheny county gets the following representation:

Four Senators (an increase of one), as follows:

First to Fourteenth ward, and Twenty third ward of Pittsburgh one Senator; all the territory south of the rivers one Senator; Allegheny City and Sewickley, one Senator; all territory between the rivers and north of the rivers outside of Allegheny City and Sewickley, one Senator.

There will be fourteen Representatives as follows: First, Second, Third, Fourth, Sixth, Seventh, Eighth wards of Pittsburgh, 2; Fifth, Ninth, Tenth and Twelfth, 1; remainder of Pittsburgh including the South Side wards, 4; Allegheny City 3; Territory south of the rivers outside of Pittsburgh and Neville township, 2; Territory between the rivers and outside of Pittsburgh, and all that north of the rivers, 2. Total 14.

Mayor's Salaries.

The House bill making the office of Mayor a salaried one came up to day, and was amended so as to exclude from its provisions all Mayor's now in office or elected prior to the passage of the bill. This amendment was concurred in and the bill passed.

The Next Congressional Election.

We had Hon. John Cessna in town to-day. He is here to gather some information as to the time of the next Congressional election. He says that article 1, section 4 of the United States Constitution prescribes that the Legislature of each State shall fix the time for the election of members of Congress. The act of Assembly of Pennsylvania of 1839, provides that Congressmen shall be elected on the second Tuesday of October. This act is unrepealed, and unless Congress changes the time, the members of Congress must be chosen on the first Tuesday of next October. He proposes, immediately upon his return to Washington, to introduce a bill fixing the time in November as prescribed in the new Constitution.

Farewell Embraces and Tears.

The closing scenes in Legislative halls to-day were full of pathetic tenderness and dewy emotion. The members of the happy family who have clung so lovingly to their legislative home for the past four months, could not separate without emotion. The general "gush" crystalized itself into presentations, in which some really valuable tokens of fraternal feeling passed from the many to the few.

The first man honored was Speaker McCormick. This presentation ceremony was heralded by the appearance of messengers bearing with them a large mahogany case, richly covered with purple, and containing a superb silver set of the celebrated Gorham manufacture. The pieces were all lined with gold. The sett is of the Etruscian pattern, and is ornamented with frosted filagree work. The coffee urn is ornamented with designs of game and fish, with all the little animals included in the "wild cat" bill thrown in as supplements.

This little bit of pleasantry in the designs was indulged in as a reminder of the waspish amiability with which the Speaker and Chief Clerk Errett, of the Senate, regarded the action of the House, when an entire morning was spent in frothy debate, or on a "scalp bounty bill." The intrinsic value of the set is put down at $1,100

Mr. LITTLE, of Wyoming, was selected to make the presentation speech, a duty which he performed in a pleasant manner, and to which the Speaker made a brief response.

Other Gifts.

Other gifts were then presented as follows: A gold banded ivory gavel to each of the Speakers—pronounced the neatest patterns of the kind ever given to any officials at Harrisburg.

Mr. MYLIN, of Lancaster, presented on behalf of Speaker McCormick a beautiful pair of sleeve buttons to Chief Clerk, Dr. Sherlock, of the House. The pages had also contributed for the same gentleman and presented him with a gold headed cane. Mr. Hays, of Allegheny, presented the same in well timed remarks. Representative Young was presented by Mr. Wallace on behalf of the officers of the House with a pocket compass and a nice little address hoping that the compass would assist him in his tramps through the rural districts of the South Side, and that he would be as true to his constituents as the needle was to its magnetic bearings.

Col. Hugh Morris on a heavy, solid gold chain from the officers of the house; it was handsomely engraved and was received by the soldier with the modesty characterizes his whole conduct.

The Democrats presented Mr. Petricken with a silver set and Mr. Brockway with a gold-head cane. ARCTIC.

BROWNSVILLE, PA, May 14, 1874.

The hardware store of James Slocum, of this place, was broken into last night and robbed of over two hundred dollars' worth of cutlery. There appears to be no positive clue as to who the thieves are, but strong suspicions are entertained and arrests will probably be made before the end of the week. C.

WESTWARD BOUND.

Excursion of New York Capitalists—Trip to the Missouri Iron Regions—The Gentlemen Composing the Party.

Yesterday morning an excursion party of New York bankers, brokers and capitalists arrived at the Union Depot, on their way west. The trip they are taking consists of an excursion of twelve hundred miles over the Atlantic and Pacific railroad and through the iron regions of Missouri. It was originated by the managers of the A. & P. road with the object of making the travelers acquainted with the resources of the country through which the road runs. The programme to be observed is quite a varied one and too lengthy to give in detail. The entire journey will be made by daylight. Immediately after breakfast the gentlemen left on the Pan Handle Railroad and at six o'clock last evening dined in Columbus. They will reach St. Louis at one o'clock this afternoon. General Pierce, the General Manager of A. & P. road has requested Messrs. Bennett, Jones, Chalfant, Herron, Harbaugh, Garrison, Moorhead and other iron men of this city to join the party at St. Louis, and we hope Pittsburgh will be represented by at least some of them. Gen. Burnside is among the party.

SHOT BY A POLICEMAN.

The Wounding of James Mooney Yesterday—More Serious than at First Supposed.

Officer James Hines, who is on duty on the South Side, yesterday morning shot and seriously wounded James Mooney. It seems that on Wednesday night, James Jones, who lives on Mt. Washington, was attacked by Mooney near the Incline Plane. He then went to a magistrate's office and entered suit against his assailant for assault and battery. A warrant was issued and placed in the hands of officer Hines, and between four and five o'clock yesterday morning, catching sight of Mooney, he attempted to arrest him. Mooney made an effort to escape, and the officer, drawing his revolver, shot with the intention of frightening him, but the ball took effect and hit Mooney immediately under the shoulder blade, inflicting a dangerous wound. Hines came to the Central Station and delivered himself into custody, but Mooney's injuries being considered slight he was returned to duty. The wounded man was taken to his fathers house where his hurts were dressed by Doctor Brewster. During the day it appears Mooney got considerably worse, and yesterday afternoon Alderman Strain was sent for to take his information against Hines. He was found to be very low, unable to speak above a whisper and the bed was saturated with blood. Owing to his condition, his mother, Mrs. Catharine Mooney, made the information charging Hines with felonious assault and battery. A warrant was issued, but the officer was unable to find the accused. Upon returning to his office, Alderman Strain sent Dr. Donnelly over to examine Mooney, and we understand the physician probed the wound but was unable to find the ball, and that he also expressed the opinion that Mooney's injury is of such a serious nature that it will result in his death.

FEDERAL STREET.

Ordinance for changing the grade of Federal street, from Suspension Bridge to South Diamond street.

A lengthy report on the subject was read from the City Engineer. In substance the report set forth that it was impracticable to so raise the grade that the railroad track could remain as it is now and give room for trains to pass under the grade. The Engineer, however, claimed that a compromise could be effected by raising the track, commencing at the railroad bridge and ending at Western avenue. This would make the railroad grade much better than it was now, and it was looked upon favorably by the railroad companies. Then when the tracks were thus raised, the grade of the street could be changed, leaving the street at the railroad crossing just as it is, cutting down the "hump" at Park Way so as to reduce the grade between the railroad crossing and South Diamond street which could be made by a lowering at Park Way of two and a half feet; then filling up the low ground near Lacock street about two and a half feet. This would make the whole street grade, from the bridge to South Diamond street, at a gentle rise and leave the trains pass above head of travelers along the street at the railroad crossing.

The matter was discussed at some length—Messrs. Ackley, Patterson, Voegtley and Cochran spoke in its favor; Messrs. Smith, Riddle, Bepler and McNeill, urged that the matter be postponed to give the property viewers another chance to be heard. Finally,

Mr. WALTON, who favored the improvement moved the appointment of a committee of five to confer with the railroad company in reference to raising their tracks, and to postpone the matter for a week.

The motion was divided, and the question was taken on postponement, to be considered at a special meeting to be held next Thursday evening. The yeas and nays were called, and resulted as follows.

Yeas—Messrs. Ackley, Cochran, Day, Heagy, Hartman, Ober, Patterson, Phillips, Riddle, Reineman, Sweeney, Thomas, Walton, Wittmer, Voegtly, Zinkand—16

Nays—Messrs. Bepler, McNeill, Smith, McBrier, President—4.

So the ordinance was postponed.

Mr. WATSON then withdrew the motion in reference to the appointment of the committee, and thus the matter was allowed to rest.

There had been a large crowd in the lobby, who manifested every interest in the discussion, and at once left the hall, when the matter was disposed of.

Mr. PATTERSON presented the reports of Viewers on English alley, Iten street, street in rear of Fountain street, alley in rear of Lincoln avenue. Ordered to be filed in Engineer's office.

Mr. OBER presented the report of the Committee on Surveys. They also presented an ordinance for opening of Howard street; passed finally. Ordinance for opening of River avenue, from School to Federal streets.

The Committee also offered the report of Viewers on the opening of Wood's Run avenue, which was ordered to be filed in the Engineer's office for a month.

Mr. VOEGTLY presented the report of the Auditing Committee. They offered a resolution requesting the Finance Committee to notify those collectors of delinquent taxes who had been negligent in making returns, that unless they are more prompt in paying over the amounts due, legal measures would be taken to stir them up to a better discharge of their duties. The committee also offered a statement showing the amount of fines paid into the City Treasury by the various officers.

Report received and resolution adopted.

Mr. BEPLER offered a resolution instructing the Superintendent of Water to put up a hanging lamp at East corner of South Diamond street. Referred.

Mr. ACKLEY, resolution for a gas lamp on Washington avenue; resolution for repairing Jackson street; resolution for grading and paving of Franklin street. Resolutions referred.

Mr. SMITH offered an ordinance authorizing the Park Committee to take possession of all the seminary grounds included in the Park Improvement, that might not have been formally handed over to the city by perpetual lease, but were included in the Act authorizing the Park Improvement. The ordinance was passed.

Adjourned.

The committee also presented an ordinance which provides that after October 1st, 1875, it shall be unlawful for any person or persons to maintain stock yards within the city limits. This will give the drovers ample time to remove the present objectionable buildings to a more suitable place. Report received and filed.

The ordinance was then passed as presented by the committee.

Mr. COCHRAN of the City Property Committee reported that Mr. Richards had refused to take the contract for building the Fourth ward engine house at the bid handed in by him originally, for $9,830, as he had made a mistake in his calculations and he wanted $711 60 more. The contract was therefore awarded to the next lowest bidders, Messrs. Wm. Murdock & Son for $10,685.

The contract for building the armory for Knaps' battery was let to Messrs. Fisher & Aiken for $4,458.

The committee also recommended the passage of a resolution to let the contract for frescoing the Select and Common Council chambers at Messrs. Vogel & Son's bid, which is for $900. The committee thought frescoing better than painting. Messrs. McCormack & Bro. were the lowest bidders for kalsomining the old and new halls, namely for $120, and the committee recommended that the contract be let to them. Report received and filed and the recommendations and resolutions adopted.

PUT THE SYSTEM IN FIGHTING TUNE.

The great object in cases of indigestion and its accompanying derangements of the liver, bowels and nerves, is to put the stomach in a condition to dissolve readily and without pain, the food submitted to its action. This is accomplished, and much more than this, by the daily use of Hostetter's Stomach Bitters. A dose should be taken before every meal. The good effect will soon be apparent. The loss of flesh, strength and energy which usually occurs in dyspepsia will be arrested. The determination of bile to the skin will cease, and that cathartic fluid will pass in the bowels and assist in keeping them free. Every organ connected or dependent upon the stomach will be toned and renovated. The kidneys, the sifters of the system, will be beneficially influenced, as well as the liver, the alimentary canal and the pores. In short, the whole organization will be put in fighting trim necessary to resist and expel disease. If the medicine is taken regularly and persistently, this result will inevitably follow.

GOLD closed in New York yesterday at 112¼.

SENATOR RUTAN'S bill, authorizing a commission, to provide amendments to the new Constitution, has passed both Houses, and will doubtless receive the Governor's signature.

OUR State Legislature adjourns to-day. Speaker McCormick is to be complimented with a very beautiful silver service—probably in recognition of the principle that his reward should bear some relation to the annoyance he has suffered.

THE Liberal Republicans of New York have determined to take time by the forelock, and hold their Conventions before those of the regular parties are held. By adopting a line of policy, and nominating candidates they seek to gain influence and votes. The prospects, we judge, are rather dim.

SERRANO'S new ministry, while it comprises several worthy names, does not include that of Castellar, who would have given the administration more popular strength than any other person that could have been selected. Still, there is a growing unanimity of feeling among the Republicans which promises well for the permanency of the Government, however frequently the leaders may be changed.

THE contractionists in the Senate were beaten yesterday, in so far as the percentage of increase of National bank notes shall relate to the withdrawal of legal tenders. The bill, as reported by Senator Sherman, provided that for two dollars of bank notes issued, one dollar of legal tenders shall be retired. Four dollars were substituted,—making the proportion one to four. What will become of the entire subject is an unsettled question.

THE reported arrest of the brother of the Russian Czar, and search of his house, at St. Petersburg, has started several journals to airing their knowledge of Russian imperial history. No one pretends to know that there is any crime chargeable to the Grand Duke Constantine, but the guess is that he is in league with the old Muscovites to oust the present Emperor, because of his supposed friendliness with the Germans. When some definite intelligence is received it will be time to comment.

THE prospect of war between several of the Indian tribes seem to be very decided this Spring. While deplorable, if Indians must expend vicious blood every few years, we know of no better plan than for them to do it among themselves. It may not be an agreeable contemplation to coolly entertain, yet the lessening of our Indian population will probably give peace to our border territories, and equally probable, so long as we have Indians, will we have border outbreaks and wars.

As THE Arkansas Gubernatorial trouble may be considered as good as settled, it may now be said that throughout the extraordinary occurrences which have taken place, Baxter has shown the greatest amount of sagacity and prudence. At one time the current of sympathy was with Brooks. He had the Court decisions in his favor, and the State House offices in his hands. Yet, by rejecting reasonable proposals he estranged the sympathy felt for him, and Baxter, by his judicious course, gained friends and so has the advantage of position.

A FLOWER mission has been organized in Philadelphia, on the model of that in New York. Its aim is to distribute, judiciously, flowers among the sick and needy, and to inspire among those in comfortable circumstances the spirit and habit of self-sacrifice for the good of others. The origin of these missions was in the accidental bestowal of flowers, by a lady in New York, on two poor street boys. The passionate gladness they manifested led her to repeat the kindness; and she found that no single blessing would carry so much gladness to the poor as that of a flower. Might we not have a flower mission organized in Pittsburgh?

LEGISLATIVE candidates will now rapidly come forward. This community, in its interests and sentiments, strongly favors an increase of currency, in some form, and legislation on this subject must be enacted at the next session of Congress. The Legislature to be elected this Fall will have the election of a United States Senator in its hands. This fact should not be lost sight of; and the members from Allegheny county should be selected with reference to their views on this subject. The Senator who represents Western Pennsylvania in Congress, should represent the views of his constituency, and we call attention to this phase of the subject thus early that it may not be lost sight of.

THE finance issue is again up in the Senate; but the time devoted to it represents so much waste, as nothing practical can be agreed upon by the two parties. The contractionists taunt those who seek a more liberal monetary system with threats of a veto,—and intimate that unless contraction is agreed to nothing will be given. In view of this insulting course by the minority we sincerely hope the subject will be left where it now is, so far as Congress is concerned, and carried before the people in the coming Congressional canvass. We greatly err in our views if a majority is not returned that will be sufficiently strong to pass a proper measure, even over a possible veto. In any event, we hope our friends will not accept "flank movement" compromises, whatever their character. Senator Sherman has evidently tried Senator Scott's tactics in the bill reported,—that is, to offer a bill which has a few phrases that look like an increase of currency, but that really means contraction. Better nothing than that.

TWO RATHER interesting political drifts are developed, just now, in regard to the Presidency. One is given expression in the Louisville *Courier-Journal*, that it is the opinion of persons in Washington, who are clear in their judgments, that President Grant has a third term of the Presidential office in view. The other, that the Manhattan Club meeting in New York, a few days since, had for its aim, the proper preliminary understanding for Grant's nomination for a third term, as their candidate, on an anti inflation platform. We have yet to be convinced that there is anything in all this, so far as the President is concerned. He can, we fully believe, control the nomination, and we are greatly mistaken if he has not Minister Washburn in mind as his successor. Grant is noted for the positiveness with which he holds to his friends. He and Washburn were friends at the outbreak of the war, and the latter, in Congress, stood by him during the dark days, when he was under a cloud. In the brighter days that have followed, the two have remained firm in their friendships, and we do not doubt that the President will be glad to see the Minister his successor. If so, he can control it. There is but a single contingency that will develop a third term, and that will be a generally expressed wish for it.

APROPOS of educational agitations is the statement of Newman, an English educational writer, that the free schools of this country are immensely superior to those of Europe. Even Prussia, he claims, with all her boasted compulsory system of general education, falls behind us in progress. He ascribes our success, mainly, to the abandonment of old methods and studies, and the development of a system of our own, adapted to our surroundings and tendencies. He considers that our only drawback is,—not in our failure to adopt compulsory attendance, which is a partial failure in Prussia,—but sectarian colleges, a great number of which, he claims, have pretentions far beyond their merits. They assume to give the youth an education such as the free schools cannot impart, while really, despite their pretentious names, they are only academies of tolerable merit. If our free schools were so developed as to do all that these do, our Colleges and Universities would be driven to adopt a higher standard of attainment. We believe a higher grade in our free schools would be wise, and the compulsion that would be put upon Colleges to elevate their standard would benefit them.

THE *Telegraph* evidently undertakes to criticise our article on the High School, without knowing what it is talking about. Nearly a decade has elapsed since it was established, during which time the attendance at the Ward schools has nearly trebled, while that at the High School remains practically where it was at the outset. Hence the prospect for the next ten years is not encouraging. As we understand it, the difficulty is not that more children cannot pass the prescribed examination than enter, but owing to a four years' course being required, very many do not try to enter, as their parents cannot afford to keep them there so long a time. What is proposed is that a two years' course shall be prepared, that shall embrace only such studies as can be made practically useful to such children as are compelled to learn trades. Do we rightly understand the *Telegraph* as opposing the extension of the benefits of the High School to such children? We do not know that any modification of the present standard of examination will be necessary to realize what we wish; and we certainly desire it to be kept as high as is consistent with enlarged usefulness. But we do not desire it to be exclusive. It is too much a classical school to-day. Latin comes in every hour's recitations, and no other study is as frequently recited. The High School is for the many, not the few.

PERSONAL.

MR. BROOKS, of Arkansas, was formerly a Methodist minister.

PROVIDENCE, R. I., has an old citizen named John Williams, who recently celebrated his one hundred and sixth birthday.

MRS. BELVA A. HARRIS has been admitted to practice before the Court of Claims in Washington, beginning with a $100,000 suit.

A MR. J. C. HALL, an official in the Indian Political Department, lately became insane and murdered two natives near Oomrut, India.

MISS J. EDGAR THOMPSON has her dresses made in Paris. On a recent invoice this lady paid $600 customs duties, and it was only a trunk full.

A KING of Babylon ordered cremation for his subjects, and built for that practice the first furnace, but Messrs. Shadrach, Meschach and Abednego wouldn't cremate.

THE Sumner family, which gave Massachusetts Colony a Governor, and was represented in our time by Senator and General Sumner, migrated in 1604 from Bicester, in Oxfordshire, England.

ADELINA PATTI, the fair Marquise of Caux, is said to be growing enormously fat. Several cabinet councils have been held at St. Petersburg about it, and the Czar offers a liberal reward for the discovery of any means to thin her out.

THE wife of ex-Governor McCook, of Colorado, died in Washington on Tuesday of typhoid pneumonia. She had been in the capital several months with her husband, who is awaiting the result of his nomination to the Senate for Governor of Colorado.

THE Vienna journals announce that, according to an ancient custom still observed at the Court of Vienna, the Emperor and Empress of Austria washed the feet of twelve old men and twelve old women, on Good Friday, one old woman being 107 years old. The ceremony was performed with great solemnity in the presence of the Court dignitaries, and each old person received thirty pieces of siver.

PROF. LOOMIS, of Yale College, like ex-President Caswell, of Brown University, has been making comparisons between the April which has just left us and its predecessors for 96 years, and he finds that it had a mean temperature of six degrees below the average of any of them. The records have only been kept at New Haven for 96 years, but that is long enough to give our youngest April a very bad reputation.

ITEMS OF INTEREST.

A SOCIETY for the cremation of the dead has been formed in London, and is advertised in the *Athenæum*.

COUNTRY editors are collecting big eggs by means of artful little paragraphs praising the persons who send in the eggs.

THE London *Times* has just been compelled to pay about $250 damages for libel. It still continues publication, however.

"AN overflowed widow with three children" advertises in the New Orleans *Picayune* for her lost cow that disappeared with the flood."

IT is proposed to make stage scenery fire-proof by using wire cloth instead of canvass, and iron frames instead of the wooden ones now employed.

A LOUISVILLE man complains that his wife is an inflationist. She blows him up every day, and makes him circulate until he actually feels that he is beyond redemption.

A SMART young gentleman in Buffalo, aged four years, recently tied crape to the door knob to see if the carriage would take them out riding as it did the family across the way.

THE Brooklyn *Argus* is trying to make itself popular by saying that the Brooklyn ladies are the loveliest in the world. It would have been correct if it had substituded the name of Pittsburgh for Brooklyn.

A MISSISSIPPI man has recovered $25,000 from the Southern Railroad for killing his wife, and is preparing to invest in another matrimonial speculation. He says it beats cotton planting all hollow.—*N. Y. World*.

A MAN at Joilet Ind., has been testing the endurance of potato bugs. He placed some in a bottle eight months ago. They have been exposed to the extremes of winter and summer, have had nothing to eat, and are still living.

A GENTLEMAN in Lafayette, Indiana, on being asked to take a drink recently, said he preferred, if agreeable, to take a loaf of bread. The treater accordingly bought a ten cent loaf, which the gentleman had sent to a needy family.

MR. MELLISH, who has gone insane, was a contractionist. If he would enter some of our Chicago newspaper offices his affliction would never be noticed. His mutterings would be as nothing compared with the ravings of his associates.—*Chicago Inter Ocean*.

AN international congress of the geographical sciences will be held in Paris in the Spring of the year 1875. The geographers and travelers of all countries will be called to attend it. Simultaneously with the congress will take place an exhibition of maps and geographical implements and instruments.

A WYOMING paper thought it a shrewd dodge to announce that its charges for marriage notices would be "just what the ecstacy of the bridegroom might prompt." This worked splendidly with those who paid cash at the time, but when they came to settle those notices which had been inserted on credit the amounts ran discouragingly below the regular rates, and, as about nine-tenths were on credit, that paper has changed its tactics.

THE mildness of last winter (albeit it has been continued extraordinarily late into the spring) has not prevented the gathering in Maine of an immense ice crop, estimated at from 1,500,000 to 2,000,000 tons. About 300,000 tons have already been sold or bargained for at $3 per ton, a price which is largely remunerative to the cutters. Not less than 5,000 vessels will be required to carry away the product to the markets, and the yield of the Kennebec alone will require over 3,000 vessels, or an average of nearly fifty vessels a day during the navigation season.

THE sphygmograph is a little instrument employed to examine the pulsations at the wrist, and register them on a strip of paper moved by watchwork, somewhat after the manner of a house telegraph machine. It reveals in a very delicate and beautiful manner, by the tracking of a pencil on the paper, the force of the heartbeats, and in making experiments with different kinds of medicines, it shows their effect on the nervous system. A writer in the *Medical Record* suggests that it will soon come into common use by Life Insurance Companies in ascertaining the eligibility of applications and detecting obscure diseases.

A CORRESPONDENT of the *American National Record* gives the following theories upon the origin of the dollar mark: 1. It is a combination of U. S., the initials of the United States; 2. That it is a modification of the figure 8, the dollar formerly being called a piece of eight; 3. That it is a combination of P. and S., from the Spanish peso dura, signifying hard dollar; 4. That it is derived from a representation of the "pillars of Hercules," consisting of two pillars connected with a scroll; 5. That it is a combination of H S, the mark of the Roman money unit. In the language of the showman, "You pays your money and you has your choice."

TIDIOUTE.

Matters in the Oil Regions.

Correspondence of the Pittsburgh Gazette.

TIDIOUTE, May 12, 1874.

Summer is not over yet; fresh and green up here in Oildom; but the last few days remind us that a new summer rig would not be out of place—but to raise the wind on $1 80 oil is a kind of up hill work, but trust to luck and stare fate in the face is the motto of our producers; we patiently wait for something to turn up, and as oil is the mainspring that drives the machinery of this greasy part of Pennsylvania, we have to cut our coats according to the price of the greasy fluid, therefore our summer rigs depend on which of the Bovins or Urstines known as the Bulls and Bears has the longest wind. The bulls bellow and the bears growl. The other animal; known as the Standard Oil Co., pats the bears on the back, saying, be not afraid; we are with you and have sold short. The result is ruinous peices for our staple and frequent visits from the sheriff.

I see by the GAZETTE some one from your city has been interviewing the manager of our Petroleum Gas Works. He is a little gassy, but did no more than justice to the works. Some of our sports were out last Saturday fishing for bass. They brought home some twenty-five, all of the finey tribe but one; it was of the empty glass persuasion.

On Sunday the M. E. Brick Church was opened for divine service for the first time; the building committee and members feel proud of their church; and well they may, for they have as handsome a church as there is in the county. On the 16th we are to be enlivened by Madame Rentz's troupe of female Minstrels. In case they captivate any of our friends we will let you know how it is. B. H.

STATE BREVITIES.

THE Duncannon puddlers are still on a strike.

A LEHIGH COUNTY man has a beard 4 feet 5 inches long.

CENTRE COUNTY Agricultural Fair October 6, 7, 8 and 9.

LEHIGH COUNTY prison is said to be the handsomest in the State.

MRS RILEY, of Media, celebrated her 104th birthday last week.

A READING youth of 28 married a woman aged 65. She is worth $15,000.

ONE-HALF of the furnaces in the State are out of blast.

CUMBERLAND COUNTY has a steer for which $750 is offered. He weighs nearly 4,000 pounds.

OVER a quarter of a million of bricks in the raw state were destroyed by the late moist season in Reading.

A LITTLE boy named Eddie Clure was drowned while bathing in the Allegheny river at Oil City Monday night. He ventured too far beyond his depth.

THE Economites having purchased the large dam and water power on the creek at Beaver Falls, propose to so arrange the water power that all the manufactories in the vicinity may be run by the same instead of steam.

DURING 1873, Rev. S. G. Shannon, of Milroy, Mifflin county, preached 175 sermons, delivered 18 addresses, admitted 107 to the church, married 16 couples, baptized 40 people, buried 26, visited 170 families and traveled 2 885 miles.

A FEMALE cat, says the Lebanon *Courier*, belonging to Mr. David Aughinbaugh, at Sheridan, gave birth, last week, to six kittens, all attached to each other at the stomach by a ligature at that place. This beats the Siamese Twins all to pieces.

THE Steel Works Company from Pittsburgh who have been prospecting for a site to locate for some time past, have lately secured a tract of land in Beaver Falls, a short distance from the saw works, where they will soon commence the erection of the necessary buildings.

IN the Perry county Court last week Judge Junkin sentenced a fiend incarnate named John Baker, who was convicted of committing a rape upon the person of a little girl named Alice Robinson, aged eleven years, to separate and solitary confinement at hard labor in the Eastern penitentiary for a period of ten years.

THE Southwest Pennsylvania Railway will be extended this season from Connellsville to Mt. Braddock, a distance of about seven miles. The completion of this road to Mt. Braddock will put the Pennsylvania Railroad in direct competition with the Pittsburgh, Washington and Baltimore Railroad for the coke trade of the Fayette branch.

THE graduates of the Washington seminary are making arrangements for a reunion in the hall of the institution on Thursday, June 25th, with a view of extending a farewell offering to Mrs. Hanna upon her retirement from the active management. The matter is in the hands of a committee consisting of Miss Martha Grayson, Mrs. R. B. Gamble, Mrs. C. Lemoyne Wills, Miss Jenette B. Lourie and Miss Jane W. Baird.

THE CROPS.

Western papers give cheering accounts of the prospects of crops in the great grain producing regions. Wheat never looked better, they say; it is almost half grown and but little injured by the winter freezing. A St. Louis paper says that Missouri will yield a third more wheat this year than last. The oats crop also promises well. The meadows are in excellent condition and the yield of hay will exceed the average. Fruit is but little injured, is now out of danger from frost and will be abundant. Nothing can be safely predicted of the corn crop, but there is no evident influence to prevent a bountiful yield.

The Greensboro (Ga.) *Herald* says: "Twenty farmers, taken indiscriminately from all sections of this county, planted in 1873, 2841 acres in cotton, 1440 acres in corn, 210 acres in oats, and 67 acres in wheat. This year they will plant 2826 acres in cotton, 1715 acres in corn, 410 acres in oats, and 153 acres in wheat."

The entire peach crop of Monroe county, Ind., has been cut off by the frosts. The value of the peaches raised in the county is usually about equal to the value of its wheat product.

The winter wheat on the beech lands in Logan county, Ohio, is reported killed, and many farmers have plowed up their fields.

It is estimated that over $15 000 worth of cattle have starved in Jasper county, Ind., in the last two months.

The editor of the Richmond *State Journal*, whose farm is in Fairfax county, on the Potomac, writes that the peaches are generally killed in that region, except in orchards located along the immediate banks of the river. All other fruit is unharmed. So far as present appearances indicate, the crop of cherries, apples and pears will be large. Some varieties of peaches are killed totally, others show a scattered setting, while a few are thickly set.

Management of Chickens.

Early chickenhood is the time when poultry-breeders should assist nature in developing the size and growth of fowls. In it the frame of the future bird is molded, its size increased or its growth retarded, just in proportion to the degree of care and attention then bestowed. Whatever be the object sought in raising chickens, size, with very few exceptions, is one of the principal points looked for; and this can only be obtained to a degree of perfection by the proper treatment of chickens from the time they are hatched until they arrive at maturity. Feed well, feed often, and keep the chicken pen clean, are golden rules which should be emblazoned on every chicken coop in the poultry yard.

To Make Cuttings Grow.

A correspondent of the *Western Farmer* says: —I used to have a great deal of trouble to make currant and gooseberry cuttings or slips grow, until I tried the following plan: I boiled some potatoes until they were very nearly done, and then stuck one on each slip and put it in the ground. Every slip sprouted and grew well all summer, with one or two exceptions. The idea of putting the boiled potatoes to the end of cuttings was to furnish and keep moisture enough for them to grow until the roots become large enough to gather this moisture and substance from the soil.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, May 15, 1874.

The abundance of money at the banks continues, and it is thought by bank officers will be increased. The reason is simple. There has been such a falling off in the volume of business that the amount of currency in circulation is large in proportion to the amount of business. Hence there will probably be an increasing amount of deposits for several months to come, with a light demand for discounts. There is a large amount of money seeking investment in mortgages, but the demand for money by this class of securities is extremely light. There are also considerable sales of real estate, and what is remarkable, the prices generally hold up to the average standard. We cannot fully account for this. That such purchases are not speculative seems entirely likely, in view of the fact that the prices are maintained; and if not speculative, they seem to suffuse a more healthful monetary condition among the masses than has generally been supposed to exist.

The prominent financiers of Germany have an agent now in this country looking after American railroad credit, who throws out the intimation of an early foreclosure of the Rockford, Rock Island and St. Louis Railroad, which has been bonded to the extent of nine millions, of which eight and three-quarter millions are held in Germany. The road had defaulted some time since on its interest, and although an arrangement was effected, it again defaulted the first of last February. The present managers of the road having failed to accomplish the successful and solvent working of the road, are now appealed to to relinquish the road to the legitimate owners, the bondholders, who, in law and equity, are the rightful proprietors of it.

Four of the six millions of the six per cent. sterling bonds of the Delaware and Hudson Canal Company have been negotiated at 92½ per cent. The bonds run for 30 years. The negotiation affords a corresponding amount of exchange to this market.

The Philadelphia banks, with few exceptions, have added nothing to their reserve since December last, while one has lost a portion of its reserve.

A large party of railroad men and capitalists passed through this city yesterday, on a visit to the iron and lead mines owned by the Atlantic and Pacific railroad.

The contractionists in Congress were beaten yesterday, in so far as the retirement of legal tenders is concerned. Twenty-five per cent. was substituted, in place of fifty per cent., as reported by the committee. We do not, however, imagine the matter will come to much.

COMMERCIAL.

Condition of the Markets at Home and Abroad.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 14, 1874.

There is a continued fair degree of activity manifested in commercial circles, but the markets in a general way, present nothing really new or particularly important. We can report a steady consumptive demand for the leading staples with a very fair business in the aggregate, while as regards values there have been no recent important changes.

APPLES—The market is quiet and prices unchanged, ranging from $6@7 ⅌ brl, for good to prime.

APPLE BUTTER—7@8c ⅌ gallon.

BEANS—There is an increased demand; as noted in our last report prices are higher; we now quote at $2.15@2.35 per bushel, the outside figure for prime navy beans.

BUTTER—Commission merchants all agree in reporting a dull and drooping market, and there is but little prospect of an early change for the better; farmers and pedlers are supplying the market. Prime to choice may be quoted at 20@25, and holders are all anxious to realize.

CHEESE—New Ohio continues to come in freely, and prices are drooping: Dairy quotable at 11@12 and Ohio Factory, 15@16½. Prime old New York is in light stock and prices are fully sustained: 18½@19.

COUNTRY MEAT—Shoulders, 7@8; clear Sides, 9@9½; Hams, 10@10½. Country Lard, 9@9½.

CRANBERRIES—$8@10 ⅌ brl.

DRIED FRUIT—Apples, 9@11 for quartered and 13@14 for sliced. Peaches, 10@12 for mixed and quarters; 14@15c for halves and 18@20c for peeled.

EGGS—We have to report a continued dull market; 14½ generally reported as the ruling price, but anything like a round lot say 5 or 10 brls, could no doubt have been obtained at 13.

FLOUR—The arrivals continue heavy, especially of spring wheat and the supply must be accumulating. We continue to quote Spring wheat flours at $7@7.50 for fair to choice and $7.50 for fancy brands of Minnesota; red winter wheat, $8@8.25; white wheat, $9@10. Rye Flour, $6.

GROCERIES—Some houses report that they have all they can do, while others, again, complain of business as being rather slow; in the aggregate, however, there is a very fair trade, and we are in hopes, as the season was late in opening up, in consequence of the bad weather, that it will hold out longer than in former years. Coffee is still reported dull and heavy in the east, and notwithstanding there has been a heavy decline within the past thirty days, a still further shrinkage is not improbable. The last Rio telegram reports increased daily receipts; easier quotations and increased sales for the United States. Nothing to record in regard to Sugars. New Orleans Molasses in very light stock and prices are still tending upward.

COFFEE—Choice Rio, 28; prime, 27; good, 26; fair, 25c. Roasted, 29c for 1 pound packages; loose, ¾c less.

MOLASSES—Strictly prime new crop New Orleans, 90c; good to prime, 80@85.

RICE—Choice Carolina, 9¾; Patna, 8½c; Rangoon, 8@8½c.

SYRUPS—Extra White Drips, 70c; Sugar Drips, 75c; Amber, 60@65; lower grades, 50@55, as to quality.

SUGARS—Patent Cut Loaf, 12½; Crushed, Powdered and Granulated, 11½c; Standard A, 11¼; B, 10¾; Ex. C, 10; Circle C, 9¾; Franklin Extra C, 9¾; Franklin No. 2 Extra C, 9¾; American Extra C, 9; Yellow Sugars, 8 to 9c, as to quality.

GRAIN—There is but little Wheat offering and but little arriving, excepting what is consigned direct to the mills; millers, we understand, are not disposed to pay over $1.60 for prime red, while some dealers say it will bring from 3 to 5 cents more, and they also aver that strictly prime cannot be laid down here at $1.60. The supply of Oats is considerably reduced, scarcely equal to the demand, hence the recent advances is maintained, 60@63 as to quality. Corn is also scarce and in demand, but unchanged, 83@85. Rye is quiet and unchanged at $1.05@1.07.

HAY—Is in rather better supply, but prices are still maintained: $25@30 ⅌ ton for baled, according to quality and condition. The arrivals from below have been cut down considerably in consequence of low water.

HOMINY—$5@5½ ⅌ brl.

MAPLE SYRUP—Quoted at $1.25 for gallon jugs. Maple Sugar, 10@11 for granulated, and 13@14 for cakes.

Ham Sausage, 10.

POTATOES—The supply continues light, scarcely equal to the demand, hence prices are still maintained, ranging from $1.65@1.70 ⅌ bushel, the outside figure for prime Peach Blows. New Potatoes dull and lower, $4.50@5.00 ⅌ brl.

POULTRY—Live Chickens, 75@85c.

RAGS—Good mixed, 3 cts ⅌ lb.

PITTSBURGH LIVE STOCK MARKET.

CENTRAL STOCK YARDS, EAST LIBERTY, THURSDAY, May 14, 1874.

CATTLE.

Receipts during the 24 hours ending at noon to day, 104 cars, making 330 cars thus far this week; sales during the past 24 hours, 451 head, making 819 for the week. Market continues fairly active and the light business is attributable more to a scarcity of stock than a want of buyers, as the great bulk of the cattle that arrived here were through consignments; the supply on sale was unusually light and mostly common in point of quality. Included in the sales within the past 24 hours were 14 cars for Philadelphia and 2 cars for New York, the balance, we presume, were taken by country butchers, who were here again in considerable force this week; as regards prices, there has been no quotable change during the time in question although, as stated in our last report light, fat cattle brought 15 to 25 c ⅌ cwt more, as compared with last week, and there appeared to be more inquiry for this than any other kind. Extra 1,400@1,500 steers 6¾@6¾; prime 1,200@1,300, 6¾@6¾; good 1,100@1,200, 6@6¾; good 1,000@1,100, 5¾@6.

SHEEP.

Receipts during the 24 hours ending at noon to-day, 23 cars, or 119 cars from and including Sunday up until the time in question, nearly double what they were during the same time last week. Prices are generally quoted down from ¼ to 1 cent ⅌ lb, but the feeling is gaining strength that the lowest notch has been reached, and that prime fat sheep will hold up pretty well from this on, as it is generally conceded that the supply of good fed stock is comparatively light. Quotations may be given as follows: extra 100 lb: clipped, 6½@7 do do, 6@6½; 80@85 do 5@5½. Wooled sheep, to use a common expression are about played out: there are but few offering, and, in consequence of the hot weather, there is but little call for them.

HOGS.

Receipts during the past 24 hours, 34 cars, making 187 cars from and including Sunday last up until noon to-day. Market continues slow, the hot weather having curtailed the demand somewhat, but there has been no quotable change in prices since our last report. Philadelphia hogs, 6¾@6¾; fair to good Yorkers, 5¾@6.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 14, 1874.

The Crude market continues considerably demoralized, although prices have undergone no quotable change during the past 24 hours; quoted at $1.00 ⅌ brl for immediate shipment at Parker. It is but proper to state that the impression is gaining ground that the lowest notch has been almost, if not entirely, reached, and that a reaction is near at hand: refiners very generally regard the article as good property at present rates, but the most of them have all the oil they have tankage to put it in as well as money to pay for it. We heard one of our most prominent operators remark to day that if he had a million dollars he would not hesitate to invest every cent of it in the article at present rates, and this feeling is entertained by many others. The recent heavy break is attributable to the fact that many speculators are obliged to realize to raise funds, and once these get out of the way it is thought there will be a reaction upward. A well known producer, who was here recently, stated that the daily shipments out of the producing regions exceeded the entire production six thousand barrels ⅌ day, and it seems to be generally conceded that the production is decreasing. Refined continues very dull and considerably demoralized; prices have still further declined, and exporters appear to have entirely withdrawn from the market. May delivered in Philadelphia quoted at 13¾—equal to 13¾ on cars here, and it is doubtful whether these quotations could be realized if an attempt was made to force sales.

The barrel market, as noted in our last report, is firmer, but prices are so irregular, that it is difficult to give accurate quotations.

New York Wool Market.

NEW YORK, May 13.—The market generally has been quiet since our last, stock continues quiet and prices firm. California a little stiffer—other markets better; stock of old pretty well cleaned out; the excitement still continues in California but prices are too high to operate safely and buyers are holding off. We have had a slightly improved demand since our last for choice grades. Until prices of the new crop in Ohio are fixed there will be little doing here. By telegram from Liverpool we learn the Colonial sales are to continue to June 17. Wool at auction sale at Antwerp advanced ½d: London is higher: Port Phillip Combing Grease selling at 15d or about 51c. The sales of the last three days embrace 98 bales Montevideo choice 38, 44 bales Buenos Ayres—inferior lot—27; ten thousand lbs Ex above Fleece Ohio at 56c. 30 bales Australian on private terms. 30 bales Ex Pulled on private terms. 80 Super Potted on private terms, fourteen thousand lb Fall California at 24½, one thousand do Georgia —, thirteen thousand do Georgia on private terms, four thousand do No 1 Pulled 34, (300 do) 1 bale Spring California 33c, five thousand lb Fall California 25c, 200 bales Ex Pulled 45@47c, fifteen thousand do Flocks 44@48c, twenty thousand do Australian on private terms, 74 bales Fall California 24@25c, 50 bale Fall California clip on private terms, three thousand lb Shelling Pulled on private terms, eight thousand do Short Extra on private terms, ten thousand do Mestiza do on private terms, eight thousand do tub washed California on private terms, twelve thousand do Georgia on private terms.

*Below bench mark.

The stage of water last evening was five feet one inch and falling—some pilots say that the marks show about six inches more than there are really in the channel. Weather continues clear and warm, while business, we regret to state, is no better. Fifteen inches reported in the Allegheny at Oil City, and five feet three inches in the Monongahela at Brownsville.

The towboats J. Sharp McDonald and Panther arrived, and the Granite State was momentarily expected when we left the wharf.

The Geneva, of the Brownsville Packet Line, dropped alongside of the Exchange yesterday and took on two hundred barrels of salt.

The late Capt. Sam Houston, was a resident of Allegheny until he was a man grown, and will no doubt be remembered by many of the old residents of the First ward. The family moved to Arkansas some 20 years ago.

The Exchange arrived about eight A. M. yesterday, with a good freight list, drawing 4½ feet. She did a heavy way business, which detained her considerably. As will be seen by card she is announced for a return trip, and will take her departure on Saturday.

The huge Paragon did not get out for New Orleans yesterday as expected, but she will go to day, and shippers should get their goods as well as bills of lading down as early in the day as possible. Although the biggest stern wheeler afloat, she handles like a top and runs like a deer. Capt. J. J. Darragh is in command, and Mr. T. J. Darragh has charge of the office.

Pilot Abrams, of the Exchange, reports a sunken coal barge lying fair in the channel at the foot of Lacock, and it should be removed as soon as possible. Mr. Abrams would advise boats descending to run to the right of the barge, where they will find the best water.

The A. J. Baker is filling up steadily for St. Louis, and Capt. Poe says he intends to leave as advertised, on Saturday.

It appears that the Pittsburgh & Brownsville Packet Co and the Pittsburgh, Charleston & Virginia Railroad Co, are having a pretty warm time of it; the result is cheap fare, which, we presume, will occasion no complaint on the part of the people living in the Monongahela valley.

—The Cincinnati "Gazette" of Wednesday says Yesterday morning while the John Hanna was effecting a landing at Barrett's Landing, some lines used about her barges became loosened, and, slipping, struck Capt. Sam el Black with such force as to fracture his leg below the knee. The accident rendered him unable for duty, and Capt. Crate Reno was called to take his place. Capt. Black received prompt medical attendance. The Hanna proceeded to Louisville last evening.

—The New Orleans "Picayune" of Sunday says: The past week has been a period of but moderate activity, but still an improvement over the previous week in amount of produce received and freight shipped. On the landing yesterday we noticed several steamers receiving fair trips, and the James Howard, for St. Louis, left with her cabin full of passengers and 1,200 tons of freight.

—The Vicksburg "Herald" says: A lady from near Napoleon whose husband is one of the wealthiest planters of that section, arrived here to day, and states she left her family and hands, numbering eighty, without food. All would have starved several days since but for food provided by the officers of the City of Vicksburg.

—Capt S H Parisot, of Vicksburg, is in Louisville to contract for a boat for the Vicksburg and Yazoo River trade. He has built three boats there since the war for that trade.
